

Applied Management Accounting

Tutorial

Index

Due to a printing error, the index has not been included in the 2023 printing of the Applied Management Accounting Tutorial. Please use this index with the book.

Index

- Absorption costing
 - absorption bases, 128
- Accountabilities of senior managers, 12-13
- Accounting rate of return, 211-213
- Activity based budgeting (ABB), 20
- Activity based costing (ABC), 153
 - background to, 153
 - cost pools and cost drivers, 153
 - service sector, 156
- Artificial intelligence (AI), 172
- Assessing quality, 246
- Asset turnover, 235
- Authority and responsibility, 14
- Average annual change, 273

- Balanced Scorecard, 254
- Basic standards
 - implications, 85
- Budget
 - accountant, 10
 - centre, 16
 - committee, 9
 - cycle, 4
 - holder, 16
 - manual, 9
 - preparation, 13
 - timetables, 10

- Capital budget, 5
- Capital expenditure budget, 11,22
- Cash budget, 29, 33-35, 39, 48
- Cash flow budget, 22
- Closure of a business segment, 186
- Cloud accounting, 172
- Combination of limitations, 54

- Constraints, 51
- Contingency budgets, 21
- Control action, 71
- Controllability, 15
- Controllable costs, 16
- Cost centres, 15, 256
- Cost pools and cost drivers, 153
- Costing
 - life cycle, 164
 - target, 160
- Costs of quality, 248
- Creating budgets, 23

- Data
 - external, 7
 - internal, 6-7
- Data analytics, 172-173
- Decision making, 181
- life cycle costing, 165-166
- Decisions for services, 189-193
- Direct cost variances
 - calculation, 92
- Direct labour efficiency variance, 97
 - interpreting, 105
- Direct labour rate variance, 97
 - interpreting, 105
- Direct material price variance, 93
 - interpreting, 104
- Direct material usage variance, 94
 - interpreting, 104
- Direct material variances, 92
- Discontinue service decision, 192-193
 - Discounted cash flow (DCF), 204
 - present value, 205
- Discounted payback period, 209

Divisional performance, 257-260
 Economies of scale, 166, 226
 Effective budgeting, 12
 Ethical considerations, 253
 Expected value, 289-291
 Factors influencing forecasts, 54
 Feedback, 71
 Feedforward, 72
 Financial indicators
 adjusting to real terms, 287, 290
 Fixed and flexed budgets, 63
 Fixed budget, 5
 Fixed costs, 61, 122
 absorption costing, 122
 marginal costing, 122
 Fixed overhead expenditure variance, 123, 127
 Fixed overhead variances
 absorption costing, 125
 marginal costing, 123
 Fixed overhead volume variance, 127, 128
 Fixed overheads, 122
 Flexed budget, 5
 Flexible budget, 63-65, 69, 74
 Functional budgets, 22
 Functional organisation and reporting, 14
 graphical method, 201-202
 Ideal standards
 implications, 83
 Idle time variance, 100
 Impact of technology, 171-173
 Implications
 attainable standards, 85
 basic standard, 85
 ideal standard, 83
 Incremental budgeting, 18
 Index numbers, 284
 calculations, 286
 leading and lagging indicators, 285
 weightings of indices, 285
 Inflation, 284
 Internal rate of return (IRR), 210-211
 Interpreting variances, 86, 103
 direct labour efficiency variance, 105
 direct labour rate variance, 105
 direct material price variance, 104
 direct material usage variance, 104
 looking beyond the obvious, 106
 Inventory holding period, 239
 Inventory levels, 23
 Investment centre, 15, 256
 Key budget factor, 7
 Labour utilisation budget, 22, 27, 38
 Leading and lagging indicators, 285
 Learning effect, 226
 Least squares method, 278
 Life cycle costing, 164
 decision making, 165
 discounted cash flow, 169
 Limited finance, 51
 Limited labour, 53
 Limited materials, 51-52
 Limited production capacity, 53
 Limiting factor decisions, 193
 Limiting factors and buy-in decisions, 198-200
 Limiting factors, 7, 8
 Line of best fit, 277
 Linear programming, 200-204
 Linear regression, 277
 Machine utilisation, 29
 Make or buy decisions, 183
 Management action, 71
 Marginal costing
 closure of a business segment, 186
 limiting factor decision-making, 193
 make or buy decisions, 183
 Master budget, 22
 Materials purchase budget, 22, 25
 Materials usage budget, 21, 25, 38

Moving averages, 281

Non-financial indicators, 250

Non-profit making organisations
performance measurement, 252

Objectives, 6

Operating budget, 5

Operational budget, 11

Opportunity cost, 182, 195

Overtime working calculations, 28

Participation, 13

Payables' Payment Period, 239

Payback period, 208-209

Penetration pricing, 56

Performance
measuring, 227

Performance indicators, 225

Performance measurement
effects on behaviour, 253
non-profit making organisations, 252
qualitative data, 251
service organisations, 251

Present value, 204

Price skimming, 55

Principal budget factor, 7

Priority based budgeting, 20

Probability and expected value, 289-291

Probability distribution, 290

Product choice
limited resources, 194

Product life cycle, 55-56

Production budget, 21, 24

Profit centre, 15, 256

Purposes of budgets, 3

Qualitative data, 227, 251

Qualitative measures, 227

Quality, 246-249
appraisal costs, 248
costs of, 248

external failure costs, 248

internal failure costs, 248

prevention costs, 248

total quality management (TQM), 247

Ratio analysis, 229
limitations, 246

Ratios
asset turnover, 235
current assets and liabilities, 238
inventory holding period, 239
payables' payment period, 239
profitability, 230
receivable collection, 238
return on capital employed (ROCE), 233
the whole picture, 240

Receivable collection, 238
relevant costs, 181

Relevant costs, 181

Residual income, 258-259

Responsibility accounting, 14

Responsibility centres
budget centres, 16
cost centres, 15
investment centres, 14, 256
profit centres, 15, 256

Return on capital employed (ROCE), 233

Return on investment, 257-258

Revising a budget, 58

Rolling budgets, 21, 58

Sales budget, 21, 23

Sales price variance, 140

Sales variances, 139-143

Sales volume variance, 141-142

Seasonal variations, 278

Sensitivity analysis, 292

Service organisations
performance measurement, 251
simultaneous equations method, 203

Sources of data, 6

Standard
 attainable, 85
 basic, 83, 85
 ideal, 82, 84
 setting, 82
Standard cost card, 91
Standard costing
 absorption costing, 89
 advantages, 81
 direct labour efficiency variance, 97
 direct labour rate variance, 97
 direct labour variances, 96
 direct material price variance, 93
 direct material usage variance, 94
 direct material variances, 92
 idle time variance, 100
 marginal costing, 89
 total direct labour variance, 96
 total direct material variance, 92
Standard costing, 81
Standard direct labour costs, 90
Standard direct material costs, 90
Standard setting, 82
Stepped costs (or stepped-fixed costs), 60
Strategy, 6
Supply or buy-in services decisions, 189-192

Target costing, 160
 advantages, 161
 value engineering, 158

Time series analysis, 273
 average annual change, 273
 formula, 275
 graph, 274
 moving averages, 281
 seasonal variations, 278
Total direct labour variance, 96
Total direct material variance, 92
Total quality management (TQM), 247
 benefits, 248
Transfer pricing, 259-260
Types of budget, 5

Uncertainty, 57

Value analysis, 158
 advantages, 159
Value engineering, 158
 advantages, 159
 target costing, 163
Variable overhead efficiency variance, 120
Variable overhead expenditure variance, 120
Variance, 63
 direct material, 68
Variances
 causes, 102
Visualisation, 173

Weightings of indices, 285

Zero based budgeting (ZBB), 19
